SUNDAY MORNING, OCT. 4, 1868. For Vice President .... FRANK F. BLAIM. ENNESSEE.

EXCHTH CONGRESSION AL DESTRICT. For Mector W. W. VAUGHAN.

RAI BOADS.

There are three new lines of Railroad in which our citizens are interested, and to which we desire to invite their attention. One of these will, after long and weary waiting, be shortly finished; the others are but projected and under survey. The line being finished is the Little Rock Railroad ; the two projected and being surveyed, are the Memphis and Selma, and the Mississippi River Railroad. Of both these last, we publish op our local page to-day, reports that will

be read with interest. Of the Selma road, we learn from the pro tem. President, Gen. FORREST, that the people along the whole line, but especially as far as Holly Springs, are impatient for the commencement of the work, and will subscribe willingly and cheerfully all the land and money necessary to complete their share of it. They naturally enough look to Memphis; and flattered by the hearty manner in which our people subscribed for and started the surveying party to work, expect that our moneyed men will turn their attention to the enterprise and inbor with a will until it is a solid and enduring reality. We have already published columns of reasons why this road of our readers, we publish this morning should be constructed, and will not, there- the interdict of the Church of the Blessed report by Gen.
